

CANCELLATION NOTICE

LF 29, Safety Permit Request (Rev. Aug. 2004)

Cancelled effective 1-30-09.

LF 29, Safety Permit Request (Rev. Aug. 2004), was used to forward activity requests with backup material as required for Review Authority (RA). After completion of investigation and/or sign off by RA, the request was submitted to Safety Manager through the requester. A copy was posted with the Safety Permit. This form is obsolete, because activities requiring such safety approval are now processed through other Langley forms such as LF 49 (Safety Permit Request - Laser/Microwave), LF 118 (Safety Permit Request - Hazardous Materials), and LF 318 (Explosives Safety Permit Request).
